

Hand soap formulated without dyes, colorants, or fragrances for a pleasant hand washing experience

PRODUCT DESCRIPTION

Liquid Hand Cleaner (SE74) is a high quality, mild, liquid lotion hand soap with superior cleaning action. It contains a blend of gentle cleaners and rich emollients that help soften the skin and prevent drying. It is specially formulated to rinse rapidly and leave hands soft and smooth without sticky residues. Produces a rich lather in either hard or soft water and is ideal for all types of institutional and commercial settings. Formulated without dyes or fragrances and will not leave a sticky or lingering smell to hands and skin.

FEATURES

- Contains no perfumes, fragrances or dyes
- Contains no alkylphenol ethoxylates
- Contains no formaldehyde
- Freely rinses from skin
- Leaves no sticky residues
- No lingering scent on skin or in the air
- No pink or red staining of fixtures
- Won't harm soap dispensers
- Meets SEGC 114 Sustainable Cleaning Product Design Standard

Productivity in your hands.

Physical Data

Physical Form: Clear, colorless liquid

Odor: No perfumes or fragrances added

pH Range: 6-7

Foam Level: Excellent foam

Viscosity: Thickened

Shelf Life: 2 year minimum in unopened container

Freeze/Thaw Stability: Excellent

Solubility in Water: Complete

Usage Information

1. First wet your hands and apply a few drops into the palm of your hands.
2. Rub your hands vigorously together and scrub all surfaces including between the fingers.
3. Continue for 10-15 seconds. It is the soap combined with the scrubbing action that helps dislodge and remove soils and germs.
4. Rinse hands well, downward from the wrists to the fingertips.
5. Dry your hands thoroughly.

About Sustainable Earth®

A sustainable cleaning solution contains products that perform and have a reduced effect on the environment and human health. Corporate Express believes that a sustainable community should use its resources to meet current needs while ensuring adequate resources are available for future generations. These guiding principles motivated us to create our Sustainable Earth® line of products.

Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Corporate Express has adopted the SEGC-114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods. The following chart details the Sustainable Earth® cleaning products' environmental certifications to date.

The U.S. Environmental Protection Agency's Design for the Environment (DfE) program seeks to promote the use of institutional cleaners and maintenance products with improved environmental and human health characteristics. Products displaying the EPA DfE logo have been "Formulated in Partnership with EPA Design for the Environment Formulator Initiative".

Green Seal certification to GS-37 Environmental Standard is awarded only after rigorous evaluation, product testing and an extensive manufacturing process audit and plant visits. Products earning the Green Seal certification meet Green Seal's environmental standard for industrial and institutional cleaners based on their reduced human and aquatic toxicity and reduced smog production potential.

All plastic containers used in packaging products display the Society of Plastics Industries' three sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as: 2:HDPE (High Density Polyethylene).
