## GRAFFITI REMOVER

**Sustainable Earth**

COASTWIDE LABS · CORPORATE EXPRESS

**Tough graffiti remover formulated with environmentally responsible ingredients**

### PRODUCT DESCRIPTION

Sustainable Earth® Graffiti Remover (SE99) is formulated to provide high performance cleaning power for a variety of applications. Effectively removes graffiti, paints, lacquers, enamels, leather dyes, marker pens, crayons, chewing gum, spray paint, stains, grease, oils and similar types of residues. Contains no ozone depleting compounds, chlorinated solvents, methylene chloride, acetone, methanol, xylene or toluene. It removes most ink, stencil ink, ballpoint ink, crayon, lipstick, waxes, magic markers, permanent markers and many other forms of graffiti on all hard and soft woods, metals, stone, brick, marble, concrete, plastics and fiberglass (CAUTION: May etch certain types of plastics. Pretest on plastics before proceeding).

### FEATURES

- Instantly removes permanent ink marker
- Reduced toxicity, not flammable, reduced VOC emissions and biodegradability
- Removes spray paint in minutes
- Will not contribute to ozone depletion
- No acetone, methylene chloride, toluene, methanol, acids or other hazardous solvents
- Rinses thoroughly with a wet sponge or water rinse
- Removes graffiti from automotive and bus surfaces
- Excellent for brick & concrete surfaces

### PACKAGE SIZES

Item #	Description	Size	Units per case
SEB99032	SE99 Graffiti Remover	Quart	12

### Performance Data

Permanent ink removal from glass or porcelain	Excellent
Spray paint removal from glass or porcelain	Excellent
Permanent ink removal from concrete or stone	Excellent
Spray paint removal from concrete or stone	Very good
Permanent ink removal from marble or terrazzo	Excellent
Spray paint removal from marble or terrazzo	Excellent
Permanent ink removal from brick	Very good
Spray paint removal from brick	Very good
Permanent ink removal from metals including aluminum, brass and copper	Excellent
Spray paint removal from metal including aluminum, brass and copper	Excellent
Permanent ink removal from hard wood and soft wood	Very good
Spray paint removal from hard wood and soft wood	Very good
Spray paint removal from plastics	Very good
Spray paint removal from fiberglass	Very good
Chewing gum removal	Excellent

WARNING: SE99 can damage some plastic surfaces. Always pretest on plastic surfaces before proceeding.

## Physical Data

**Physical Form:** Clear, colorless liquid

**Odor:** Moderate

**Foam Level:** Low

**Shelf Life:** 2 year minimum in  
unopened container

**Freeze/Thaw Stability:** Excellent

**Solubility in Water:** Not soluble in water

## Usage Information

To remove normal graffiti deposits, spray or apply onto surface to be cleaned. Wipe or rinse away graffiti.

To remove stubborn graffiti deposits, use a bristle brush to agitate graffiti after SE99 has been applied and dwells for 90 seconds. Then wipe clean. A "scratchless" scrub pad can be used to help remove stubborn graffiti deposits.

For exterior masonry surfaces, wet surface with water, spray on SE99 and allow it to penetrate and begin to lift the graffiti from the surface. Use medium hard nylon brush to displace and remove the graffiti stain or mark. For rough or porous surfaces, a stiff brush can be useful. For more porous surfaces, utilizing a water rinse or pressure washer can also improve graffiti removal.

## About Sustainable Earth<sup>®</sup>

A sustainable cleaning solution contains products that perform and have a reduced effect on the environment and human health. Corporate Express believes that a sustainable community should use its resources to meet current needs while ensuring adequate resources are available for future generations. These guiding principles motivated us to create our Sustainable Earth<sup>®</sup> line of products.

## Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Corporate Express has adopted the SEGC-114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods. The following chart details the Sustainable Earth<sup>®</sup> cleaning products' environmental certifications to date.

The U.S. Environmental Protection Agency's Design for the Environment (DfE) program seeks to promote the use of institutional cleaners and maintenance products with improved environmental and human health characteristics. Products displaying the EPA DfE logo have been "Formulated in Partnership with EPA Design for the Environment Formulator Initiative".

Green Seal certification to GS-37 Environmental Standard is awarded only after rigorous evaluation, product testing and an extensive manufacturing process audit and plant visits. Products earning the Green Seal certification meet Green Seal's environmental standard for industrial and institutional cleaners based on their reduced human and aquatic toxicity and reduced smog production potential.

All plastic containers used in packaging products display the Society of Plastics Industries' three sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as: 2:HDPE (High Density Polyethylene).
